

Business VoIP - Factsheet

Business VoIP - getting it right

Hosted VoIP is ideal for companies looking to purchase or replace a business telephone system, without compromising the features and benefits of an enterprise grade onsite solution.

Cloud4 has a range of VoIP packages available to suit any business and budget, and the service can be up and running in minutes. All you need to do is choose a package, sign up and purchase any handsets you may require directly from us at great prices. We will even deliver them to you already configured to use with your VoIP account. Just plug them in and you're away.

To achieve optimum quality for multiple handsets, it is highly recommended you place your Hosted business VoIP on a dedicated broadband service. Cloud4 can provide this too!

Hosted VoIP delivers a complete business telephone system.

Your business phone, on any device!

Our VoIP integrates with all your devices from PC's and laptops, to any IP handset and even your mobile phone or tablet!

At Cloud4 we like to make your life easy, so when you purchase any VoIP handsets from us we'll pre configure them ready to plug and play FREE.

Why choose Cloud4?

Cloud4 is a **leading, trusted and UK-based** Hosted VoIP provider with reliability which consistently beats all others in the market. We get to know you, tailoring all of our solutions to your business and ensuring that you receive the services most relevant to you, and our pricing is straightforward to help you budget.

Cloud4's quality of service sets us apart; Hosted VoIP clients can access **direct support** from a team which is focused on delivering **exceptional** customer experiences.

Our innovative team has worked with Hosted VoIP **since 2009**. We are consistently at the forefront of the technology, investing heavily in the development of the services we provide.
