

# Hosted Servers - Factsheet

## Hosted Servers- just the way you want it

We're dedicated to your business at Cloud4. Our Cloud Servers let you choose from a range of flexible configurations and operating systems, which you can order quickly and simply online. What's more, if you need something a bit more customised, give us a call and we'll build it for you! Pricing and more information below...

With Cloud4, your Cloud Server is connected to a network that has been independently rated as the fastest in the UK. Running a private dark fibre network of 10 gigabits to provide optimum speeds.

We pride ourselves on providing the highest standards of security, reliability and speed, combined with outstanding service, as always.

If you have a Cloud Server requirement that the packages above don't meet, all you need to do is give us a call (0845 862 0263) and we'll discuss your individual requirements, and give you a price for your perfect Cloud Server.

## Back up the right way to ease your mind

Choose from our many options to discover which server, is the right server for your business/organisation.

All our standard server configurations are set up within 1 business day. There may be factors contributing to longer set up times, like, add-ons, custom configurations and addition of applications, but we try to do our best in getting it installed for you as soon as we can.
